INTRODUCTION

CryptoBiz Exchange is an advanced trading platform that facilitates in buying, selling and trading of virtual assets using fiat currency as well as other digital assets. Built on by experts with immense knowledge in cryptocurrencies trading, CryptoBiz Exchange provides an experience that can be regarded as of institutional grade for both the professional big guns of Crypto trading and the beginners who want to make an entrance to the world of Crypto alike. The company has its financial headquarters in Harju maakond, Tallinn, Kesklinna linnaosa, Maakri tn 25, 10145, Estonia. This document also introduces CBZ, a utility token backed by CryptoBiz, and its role in the ecosystem. We launched CBZ tokens to involve our community in helping us build out CryptoBiz and reward them accordingly for contributing to our success. We aim to share the rewards of the success and growth CryptoBiz earns with our early adopters and investors.

WHAT MAKES US DIFFERENT?

We tend to leverage an expendable and multi-stage holding strategy to ensure that the major chunk of the funds is kept in cold storage to add more safety to the already secured accounts. CryptoBiz Exchange also uses and enables the two-stage authentication process for all its users and gives options of an additional plethora of security features which enables many more layers of protection which will help in keeping your cryptocurrency secure which is and always will be our priority number one. A financial service that makes it fast, safe and fun to buy digital currency, anywhere in the world. We believe that the future of money is one where we, the people, are in control of our own economy. A future where there's no place for middle-men, hidden fees, and fine print. To deliver on that promise, to create the simplest financial service out there - spoken in a language you can understand and backed by customer service you can count on. Moreover, in a market that has become premium due to marked-up rates, we aim to introduce a fair-pricing strategy and pull down the existing prices where Indian customers shall be able to purchase virtual assets at almost global prices.

VISION

CryptoBiz Exchange has a simple user interface and experience ensuring that everyone – from beginner cryptocurrency enthusiasts to pro traders - can trade on our platform seamlessly. Our product and communications align with our mission of involving everyone into the Crypto-revolution. Our vision is to break the monopoly and offer buy/sell services at a minimum premium and put India on the map considering how the demand for Cryptocurrency has grown over the past years. We plan to introduce our user-friendly platform to more and more users with our web app, smartphone apps with advanced features to make a seamless experience for all.

TEAM

CryptoBiz Exchange has been built by a team of hardcore traders and passionate blockchain enthusiasts. We have a lean and high calibre team that believes in innovating and delivering high quality output every time. Our founders and investors are seasoned entrepreneurs who have years of experience in building successful global products. More information about our team is available on our website.

CEO: Rahul Rathod

Driven to change the discourse on crypto trading in the country and committed to guide new players in this market of Blockchain, Rahul visualises India to be a hub for potential traders to cap the benefits of crypto trading to build a massive market.
